

Expectant Mother Parking Program Information

Student permit holders in their third trimester of pregnancy may elect to reserve an expectant mother parking space. For convenience, the expectant mother may select a location which is closer in proximity to her primary destination. Students may choose one location for the parking space. Requested location is not guaranteed, but the staff will do their best to accommodate each request. Should the permit holder need to make these arrangements prior to the third trimester due to a high risk or otherwise problematic condition, please contact us as soon as possible so we can provide you with this service. Students must be enrolled as a student with on campus classes (online classes do not qualify). Students must also have a current, paid semester UCF parking permit associated with their vehicle.
